- Keep it current, won't get dated
- Could possibly sell the access to other counties/regions
- Need Video component on our site
 - We need to be able to send lesson plans, testing, and written documentation to get hours accounted for if approved by state office.
 - If approved by state office, you don't have to have testing component (Dawn)
- Somebody needed to do Leading Cause of Pediatric Morbidity
- Contact CHOA , others SMEs
 - Possibly NEGA, grand rounds, trauma rounds presentations
- Brandon – spread a conference over 1 yr
 - Annual or by-annual
- Lanier – 12 months, 13 counties. A county hosts a training every month?
- Brandon – this would give people options
- Lanier – David Foster and Jack have a training video,
 - This may be dated, but if content hasn't changed, this would be good content to begin with.
- Dawn – what about helo services?
- Dwayne – suggests Webex or other avenues
 - Dawn says the end content needs to be able to be played on any device at any time
 - EMS-C could purchase Noodle possibly
- Brandon – if video is available on YouTube, or something, your training officer verifies that they are doing the training, but would this work?
 - Yes
- Randall – if we did get content from helo services, this would give us something to start off with
- Derrick Moody – will ask and see if he can get approval to put content on thumb drive
 - Posted w/ permission
- Next step –
 - Who manages the website?
 - Karen Moody
 - She updates this, plus additional fee if additional content needed
 - Dawn says – ask if she can export the content to wave or MP3/4 or another file.
 - We can start out putting on the regions website without user login
 - As content increases, we can add password login

 - Derrick – sent email to Jeremy to see if our training info can be put on thumb drive and give us ped's portion, we can say that AirMethods gave you this

 - Brandon thinks that EMS-C should find speakers and content
